Professional Experience

Bandit

2020-Present

Software Engineering Intern

- Developed react features in reactJS, working with props, redux, dispatch leveraging the components/container paradigm
- General backend enhancements to support front-end feature development in NodeJS
- Root-cause analysis and troubleshooting back-end to unblocked
- Developed high quality features that consistently passed QA tests, code reviews and code quality standards.
- Worked with standard SDLC tools like Git, Jira, etc.

YouVisit/EAB

2020-Present

Senior VFX Designer

- Trained junior editors on our proprietary process
- Developed new SOP to integrate 3D content into our platform

YouVisit/EAB

2018-2020

VFX Designer

- Redefined platform capabilities to create the "Action Zone," Youvisit's top-grossing product
- QA'd platform inadequacies and worked closely with Development and Product on bugs and features
- Multiplied output by 10x turning 10 photographers into associate editors and cinematographers

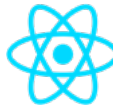

YouVisit

2015-2018

Cinematographer

- Invented the capture, edit, and delivery process for VR multimedia content across multiple iterations of Youvisit's platform
- Garnered major awards for "Four Walls" a Webby

Technical Skills

Education

Florida State University (2012)
